

Supply List for WaterColor Strips Quilt

The objective of this class is to learn the WaterColor technique. A waterColor quilt blends together using floral fabric prints. How well a quilt blends depends on the tonal value of your fabrics (light, medium, and dark). This quilt is for a confident beginner.

I call it watercolor because if you use floral prints, the stripes blend together to give a watercolor effect. You might have seen or made a watercolor quilt with 2" squares. What we are working with is using the value of light, medium and dark fabrics. I have used solid fabrics (not floral) and it gives more of a contrast to your piece. You can use several light, medium and dark fabrics or just use three fabrics, plus a border or focus fabric for the borders.

The quilt below is 62" x 62" and it uses only three fabrics plus the border.

Class Quilt

Supply List		Comments	Qty.
Light Floral fabrics	1½ yards	Fabric needs to be at least 43" in length	1 piece
Medium Floral fabrics	1½ yards	Fabric needs to be at least 43" in length	1 piece
Dark floral fabrics	1½ yards	Fabric needs to be at least 43" in length	1 piece
